

She's gonna slaughter you
I think you really deserved it
Whatever's her next move
I'm not gonna lie, I would do it too
She's gonna slaughter you
I'd say you really deserved it
If you're gonna make it through
I hope you never never come back here

You sing these songs about the moonlight
You close your eyes like it feels right (Feels right)
A pretty nice boy, gotta do some things to stay nice
I'll let you figure out what's it about

She's gonna slaughter you
I'd say you really deserved it
If you're gonna make it through
I hope you never never come back here
I hope you never never come back here
I hope you never never come back

It's hard doing this shit, oh baby
I wanna feel it and go
It's hard doing this shit, oh baby
I wanna feel it and go

I'm having myself quite a hard time
Being fond of a liar
Curled up in these hands
When I know it shouldn't happen
Oh, I know it shouldn't happen

She's gonna slaughter you (Slaughter)
I'd say you really deserved it
If you're gonna make it through (Yeah)
I hope you never never come back here
I hope you never never come back here
I hope you never never come back here

I don't wanna be the witness
I don't ever wanna be blessed by thunders
I know I've been there before
'Cause when you look at me, it's her I see
And I know she's crying in her sleep
Whenever she wakes up, I'll be there

She's gonna slaughter you
I'd say you really deserved it
If you're gonna make it through (Yeah, yeah)
I hope you never never come back here

(It's hard doing this shit, oh baby)
I hope you never never come back here
(I wanna feel it and go)
I hope you never never come back
(It's hard doing this shit, oh baby)
Never never come back

(I wanna feel it and go, oh)
(It's hard doing this shit, oh baby)
(I wanna feel it and go, oh)
(It's hard doing this shit, oh-oh-oh baby)
