Olamide

As you dey make me dey gapa  
As you dey make me dey gapa

Oya I rest like the police  
Baby anyway you whine na royal boy  
Eh you gat them feeling like they know me  
You gat me feeling you gat me feeling  
Like sey I too get mouth  
As you dey see me dey gapa gapa  
Na you dey make me dey gapa gapa  
As you dey see me dey see me dey  
See me dey gapa na because of you girl

Some boys dem don dey think on  
How I go carry the low sugary kan  
If I no fit carry am kin kan  
See as I dey hit my chest like king kong  
When I for kan kan ni caro  
I swear I dey feel your kind of parol  
Erima you fit ask your guy your saro  
You fit say I no feel you gat na shalo  
Nba ko jo rara ko jo  
You no get two head but oyato jor  
You make other girls dey put hand for jaw  
You too bad beigu oyionjo  
You dey fly but you no get wings  
You dey shine pass those wey dey  
Wear ten blinks  
I guess there's a misery behind this things  
For person to get girl like you  
No be beans

Oya I rest like the police  
See the way you whine her royal bodies  
You gat them feeling like a novice  
And you gat me feeling gat me feeling  
Like say I too get mouth  
I say you see me dey gapa gapa  
Na you dey make me dey gapa gapa  
As I say you see me dey see me dey gapa  
Na because of you girl

Even if you carry po  
You are number one  
Make you just dey carry go  
Cos iwo loba won  
You are hard you are hard  
Like fire you burn  
Your beauty is enough glue  
To them one one  
They say roof is beauty but this muah

You are too sweet I no know  
How you do am  
Wo bi mo sen gbon lete mo feel e  
Tim ba lie mi o paro ara mi mo kill yen  
You no be fake you be gidi gangan  
Wa show me le if you gidi gangan  
I no go take you play if you be toy gun  
I love you bi aja se love egungun bogo  
No be your fault na fine you fine  
I done go check the register  
And I sign the sign  
When other girls dey frown  
Na smile you smile  
Them dey show like tv  
Like star you shine

Oya I rest like the police  
See the way you whine her royal bodies  
You gat them feeling like a novice  
And you gat me feeling gat me feeling  
Like say I too get mouth  
I say you see me dey gapa gapa  
Na you dey make me dey gapa gapa  
As I say you see me dey see me dey gapa  
Na because of you girl

See after the rain people need the sun  
Is like after the pain we all need some joy  
See girl after my day I need a someone  
Who really cares to bound me with the  
Other support it might be the top of the roof  
And be watching the moon  
Imabi ina the room we go just dey smush  
Imabi straight to the club  
While I rock with you  
We make close to great nation  
Now what you do  
Am ain't other guys no am not like them  
Men trying woo you cos  
Dey are just like them  
If na tonji omi am a grown omi  
I get plenty sarewa wey I fit control in  
But no be now wey I don get you  
You dey sweet my belle cos ogeju  
If you be rice and you no get stew  
With immediate effect ma ko eje ju

Oya I rest like the police  
See the way you whine her royal bodies  
You gat them feeling like a novice  
And you gat me feeling gat me feeling  
Like say I too get mouth  
I say you see me dey gapa gapa  
Na you dey make me dey gapa gapa  
As I say you see me dey see me dey gapa  
Na because of you girl

Ilefo to bad  
Ilefo to bad

Eh eh eh  
As you dey see me dey gapa  
As you dey see me dey gapa  
As you dey see me dey gapa
