

Intro

Olamide

The street king ain't back
Cause he was never gone
You can call it a take over
But let his will be done
Yesterday gave birth to the beauty and the beast
His rapsody lo jeki awon fans ki ori won ki o ma wu bi pe won f
a yeast
Now the time has come
Some say Olamide took to blow
Arghhh, arghhh
But you shouldn't forget the fact
That he also made the world go down low
Now the street got your back
Like dey are your backbone
And the street won't give up on you
Because you're the heir to the throne
Awon to rap nkan lana
It's not because of what God gave to their hands
But made the revolution that gave lease to the brain
This is your light
And the pathway in which shows
So no come dey form baba for aye come dey denge pose
Aropin ni ti eniyan
Nibo lo fi ti Oluwa mi si
You know we ain't started
Not to talk of being over
You came and became the voice of the street
Call it the take over
It's the most play Aka Do2Dtun
You can only pick in us
You know that
Only as always said by me
When are you 'bout
When are you about to drop it
Arghhh, Olamide is ready, so is the street, it is take over
Fuck it, he is the baddest guy ever liveth
Au revoir
