The worst feeling is feeling like 'used up'

The records I drop they be getting bigger than toolz butt
Okay okay my people make we pray

In the name of Jehovah me and my people wanna say
God go punish those wey dey hate Ice and olamide

Ah Pepenazi! Yeba
They say this life all like a dick in the morning
Sometimes it stars and dead at night so I pray for the morning
Many people go tell you say they gat your back like ibadi
But me am trying to use my head like I be victor agali
No be all wey glitter for TV na him be World cup
You don't know how I feel when people dey ask you when you wan drop
From the main land to the island
We dey push like person wey he won born
We dey steal shows make he kill 'em like say the mic like I'm gone

We not one of them guys wey like to pretend that he gonna fend
We just keep it simple sexually no matter where you from surely we must blen
d ai
And you're there in the morning saying bad man must face am all e be any day
thing
Any man or woman even if you're a believer ask the people them dey sell me t
ell them ay

Oh in the darkness
But I will see the light
Cold in me such a fry
I will stay and be us
