Small like a departmental course
Ko ni da ko carry e
Coz life is a biatch
Ko ni da ko marry e
You can love her
But falling in love is the barrier
Coz when you start you get carried away
From your career
Who wanna go to hell nobody wan try
We all wanna make heaven
But nobody wan die
The only question that
I wanna ask is why
People hide away from truth
And stick to the lies
I know frustration is in the air
Bi eruku engine danfo
But
Baby come near su'n mo bi je ka fo
I know you're not scared
But don't pretend you're kinda baffled
E no show for your face
But you carry am for head like
Afro
Afro
Afro
I can feel your heart beat
I can hear your soul singing to it
But no be r n b
Na song of sorrow
Na im dey make your heart bleed
It's killing you
You're finding it so hard to breath
See we're just ordinary people
So get your mind right
Don't let your mind get crippled
Life becomes hard
When we don't take it simple
Do what you've gat to do
And leave a spot like pimple

Ile aye ni ile eko wa

Ka f'ara bale ka do pin
Le to wa
Responsibility
Responisibility
Responsibility wa ni
Oya lets go e je ka lo
We no fit run away ah o le sa lo
Responsibility

Even marry wisdom
Coz knowledge is all i see

With blood in your eyes
When a dead man walk
The Living man should rise
If you dull for warfront

Soldier go soldier come
You become an old soldier
When another soldier come
