

## Bright Spark (See What I Mean)

Old 97's

It's a big old mess of brick and stone  
Man can't live on love alone  
Yeah I hear that's good 'cause it's all gone  
Yeah there's nothin' to do but carry on

Rain falls down on this dirty old town  
Nothin's gonna get it clean  
See what I mean

Takes stand in a topless bar  
Weathered old man on a wet guitar  
We all do the thousand-yard stare  
Shufflin' around and goin' nowhere

Crowds roll in and they do it again  
Nothin's gonna break this routine  
See what I mean

Here she comes, my girl  
A bright spark in a dark world  
Here she comes, my girl  
Bright spark in a dark world

There's a big old mess of brick and stone  
Wasn't that mad when it was all my own  
She showed up and it's okay  
Now I don't mind that the sky is grey

Rain falls down on this dirty old town  
She's the only shine I've seen  
See what I mean  
See what I mean

Here she comes, my girl  
Bright spark in a dark world  
Here she comes, my girl  
Bright spark in a dark world

See what I mean
