

# Most Messed Up

Old 97's

Stop squeezin' my shoes quit killin' my buzz  
Why you wreckin' my mood what are you the fuzz  
I'm so far gone I can't never get found  
I am the most messed up motherfucker in this town  
I know it's not fair I had a head start  
There's only so many words you can rhyme with heart  
Well I used 'em all up yeah I wrote 'em all down  
I am the most messed up motherfucker in this town

Yeah I need a little need a little need a little need a little  
sympathy  
Yeah I need a little need a little need a little need a little  
sympathy

I'll prove it all night to the porcelain god  
And the dark-eyed girl with the name I forgot  
But when I wake up there ain't nobody around  
I am the most messed up motherfucker in this town

Yeah I need a little need a little need a little need a little  
sympathy  
Yeah I need a little need a little need a little need a little  
sympathy  
Yeah I need a little need a little need a little need a little  
sympathy

I am the most messed up I am the most messed up  
I am the most messed up motherfucker in this town
