

This Beautiful Thing

Old 97's

remember the year
oh, look at us then
a day in the life of me and my friend
nights would come and go on their way
i would stay for another day

oh, many a sun has risen since then
that many days i've seen her again
she was a whole other star in space
i would stay for all of my days

oh my soul you're bouncin' about
the cold i know is warming
you will help me figure out this beautiful thing we're forming
you will help me figure out this beautiful thing we're forming

help me, help me when i'm in doubt
help me find my eyes again
cuz i'm gonna lose them cryin' 'em out
if i was just a friend
if i was just a friend

help me, help me when i'm in doubt
help me find my eyes again
cuz i'm gonna lose them cryin' 'em out
if i was just a friend
if i was just a friend

some old year, we will renew
the love we had here when we were just two
in that moment i'll say to my friend
"wouldn't you do it all over again?"

oh my soul you're bouncin' about
the cold i know is warming
you will help me figure out this beautiful thing we're forming
you will help me figure out this beautiful thing we're forming
help me, help me figure out this beautiful thing we're forming
