

Wheels Off

Old 97's

I been a party to a number of things
Of which I'm not proud but I'll sing
Every day for pay I'm travelin'
I got a story 'bout a girl I dig
Big heart but she ain't that big
She's a doll that's all I'm unravelin'
I try to make her the happiest
All I ever made before was a mess
We drank all the way to the bank
And then we drank again

That's when it got wheels off
Started up and we ain't gonna stop
I said I like you like it or not
That's when it got wheels off

I took her back and I carried her in
We kissed once and we did it again
She's a bright beam of light no sleep for me
We went drinking at the Roosevelt
We took something and we started to melt
This is love and it's blowin' up exponentially

That's when it got wheels off
Started up and we ain't gonna stop
She made me feel like a god
That's when it got wheels off

Got a story about a girl I dig
Big heart but she ain't that big
Now she's mine most of the time
That's good enough for me

That's when it got wheels off
Started up and we ain't gonna stop
I said I like you like it or not
That's when it got wheels off
That's when it got wheels off
We started up and we ain't gonna stop
Pour me some Jameson give me some rocks
That's when it got wheels off
That's when it got wheels off
