

Steppin' Out

Old Crow Medicine Show

All the while you've been steppin' out
Somebody's been easin' in
Every time you paint the town, drunk on women again
While you holed with the hare and run with the hound
Somebody's tearin' your dog house down
All the while you've been steppin' out
Somebody's been easin' in

Well, e're'ody knows you're runnin' 'round
Pissin' up every bowl in town
Then you run yourself to ruin
Without the left hand knowin' what the right hand's doin'
When you're walkin' down the street in your brand-new suit
At ol' little chicken done flown the coop

'Cause all the while you've been steppin' out
Somebody's easin' in
All the while you've been steppin' out
Somebody's been easin' in
Every time you paint the town, drunk on women again

While you holed with the hare and run with the hound
Somebody's tearin' your dog house down
All the while you've been steppin' out
Somebody's been easin' in

That dirty butter you've been eatin'
Greasin' every griddle that you've been meetin'
'Fore you know it, like a thief in the night
Some sweet rider' gonna steal your wife

While you're sneakin' 'round the pen
I just thought I would warn you, friend
All the while you've been steppin' out
Somebody's been easin' in

I figured by know you oughta know
Ain't a woman I've met wouldn't let ya go
If you find yourself just a hang your head
You'll find another man's pants hanging in your bed

Well, I told you twice and I'll say it again
You best stop doin' what it is you've been
'Cause all the while you've been steppin' out
Somebody's been easin' in

And I told you twice and I'll say it again
You best stop doin' what it is you've been
'Cause all the while you've been steppin' out
Somebody's been easin' in

All the while you've been steppin' out
Somebody's been easin' in
All the while you've been steppin' out
Somebody's been easin' in
