

# Beer Can in a Truck Bed

Old Dominion

She was diggin' up her sundress, showing off her tatty  
She said, "I like your ride, maybe you could be my cabby  
What you say you pick us up a six-pack of Natty"  
Aww nice

She had a sweet little southern twang  
Said, "We don't have to talk about forever things  
For tonight maybe we could just hang like a pair of dice"

Said, whatever girl, you know I'm down  
I was thinkin' we could crush this town

Like a beer can in a truck bed  
On a slow ride in the sunset  
Bouncin' down a small town street  
Let's pop the top right off this thing  
I need a cold drink cause you're a hot mess  
Let the night do what it does best  
Shake me up and baby turn me loose  
I just wanna roll around with you  
Like a beer can in a truck bed

I said, girl you got your shades on, looking like you're famous  
We could turn this little one horse into Vegas  
Holdin' you is like I'm holdin' all the aces  
I can't lose

She said, "Come on, boy, pour it on"  
She didn't know that I was already gone

Like a beer can in a truck bed  
On a slow ride in the sunset  
Bouncin' down a small town street  
Let's pop the top right off this thing  
I need a cold drink cause you're a hot mess  
Let the night do what it does best  
Shake me up and baby turn me loose  
I just wanna roll around with you  
Like a beer can in a truck bed

Said, whatever girl, you know I'm down  
I was thinkin' we could crush this town

Like a beer can in a truck bed  
On a slow ride in the sunset  
Bouncin' down a small town street  
Let's pop the top right off this thing  
I need a cold drink cause you're a hot mess  
Let the night do what it does best  
Shake me up and baby turn me loose  
I just wanna roll around with you  
Like a beer can in a truck bed

I just wanna roll around with you  
Like a beer can in a truck bed

I just wanna roll around with you

Hey babe, I just wanna get down with you  
Hey babe, I just wanna roll around with you  
Hey babe, I just wanna get down with you  
Hey babe, I just wanna roll around with you  
Like a beer can in a truck bed
