

## Predators

Old Man Gloom

Lurking in the depths  
So dark it went black  
Floating are stars/ creatures that stare  
With vicious eyes gaze/ PREY ON ME PREDATORS  
Heaven beneath/ I will lay forever  
Torn into pieces/ in the wake of great storms  
Who are angels of oceans deep  
Where are the saviors  
PREY ON ME PREDATORS  
Heaven beneath/ I will lay forever

Be my protector  
Give me breath/ bring me life  
To old and new Gods  
Fade into the endless...
