

## Up Side Down

Old Man Markley

I got in way over my head and deep into something  
You got away with the words and left me with nothing  
What could I say? What could I do?  
I fall to pieces over the truth

I've been a mess, lousy at best  
Hard in the head, hole in the chest

Now everything seems somewhere in between  
Awake and a dream  
The good and the bad, whatever we had  
Are just memories

How long will this last? Stuck in the past  
Making excuses, too proud to ask  
Why can't I manage? It doesn't seem right  
Carrying baggage ain't traveling light

And if there is an upside  
To getting this let down  
You can't get any lower  
When you're already on the ground

Looking forward to not looking back  
Ahead is much better  
The look on my face has nothing to do  
With you whatsoever

I'm getting by, I'm doing fine  
Most of these days you don't cross my mind  
Whenever you do, I don't lose my head  
I don't fall to pieces, and I don't regret

And if there is an upside  
To getting this let down  
You can't get any lower  
When you're already on the ground

Crying in the gutter is a good way to drown  
No one wants to fall and not make a sound  
Lying to yourself makes you look like a clown

And if there is an upside  
To getting this let down  
You can't get any lower  
When you're already on the ground

Crying in the gutter is a good way to drown  
No one wants to fall and not make a sound  
Lying to yourself makes you look like a clown

Crying in the gutter is a good way to drown  
No one wants to fall and not make a sound  
Lying to yourself makes you look like a clown

Crying in the gutter is a good way to drown  
No one wants to fall and not make a sound

Lying to yourself makes you look like a clown
