

# Honey

Old Mervs

And always I'll call for your name  
And always I'll care for your day  
And always I'll cherish again  
To make it south for your day

Where'd you go now honey  
Well you didn't have to hold me down  
And be so vain

Make it out if you want me  
And here we go again

And always I'll call for your name  
And always I'll care for your day  
And always I'll cherish again  
To make it south for your day

Give it a go now honey  
I've been waiting too long for something to happen

Think I know you but I don't  
I just know you from my phone

And always I'll call for your name  
And always I'll care for your day  
And always I'll cherish again  
To make it south for your day  
And always I'll call for your name  
And always I'll care for your day  
And always I'll cherish again  
To make it south for your day
