

All The Same

Old Sea Brigade

Hold your ground just wait
Haven't slept for days
Run around the same
Nothing seems to change
Hold my heavy heart
Till it begins to start
Keep your arms as wide
Let me sleep tonight

Keeping my head from my heart till it breaks
Would it be the same if you left here for days
I see no purpose just drink it be worthless
Sit around and wait
Cause it's all the same

Said you're waiting now
Something comes around
Lets begin to talk
What we really thought
Steady as a rock
Falling from the top
If we hit the ground
Will we come around

Keeping my head from my heart till it breaks
Would it be the same if you left here for days
I see no purpose just drink it be worthless
Sit around and wait
Cause it's all the same

I've been running hot
Till it seems to stop
Change is what I got
I will not be bought

Keeping my head from my heart till it breaks
Would it be the same if you left here for days
I see no purpose just drink it be worthless
Sit around and wait
Cause it's all the same
