## Old Sea Brigade

There you were in my head  
Not a stranger, yeah, you'd come to life  
Mine to hold, tangible  
In a fever, yeah, I dreamed we danced

There we were  
There we weren't  
There you were  
There you weren't

Caroline  
Can I pull you aside?  
Can I talk you through  
My vision of our life?  
It'll take some time  
It won't feel like a lie  
We'll disappear through the years  
I'll wake up when we die  
Caroline

At the Rose Café  
If we met and I asked your name  
Would you say Caroline?  
Would we vanish into the night?

Forty years  
They go by  
A whole future  
In my mind

And Caroline  
Can I pull you aside?  
Can I talk you through  
My vision of our life?  
It'll take some time  
It won't feel like a lie  
We'll disappear through the years  
I'll wake up when we die  
Caroline

Don't take it away  
Don't let it break  
Did we even start?  
Is that even your name?

And Caroline  
Can I pull you aside?  
Can I talk you through  
My vision of our life?  
It'll take some time  
It won't feel like a lie  
We'll disappear through the years  
I'll wake up when we die
