

Lust In Red

Old

Inner hell
In a tortured cage of flesh
Black essence
Storms of pain let me out

Crushing hell nail me down
Possess my soul I won't resist
One hand is raised up
With the sign of the horns
Praise with blood the fallen one
And let Jesus burn!

Pulsate venom
Drown in blood
A black knife scars the wall
I will open my last gate
Burning cage - Lust in red

Crushing hell nail me down
Possess my soul I won't resist
One hand is raised up
With the sign of the horns
Praise with blood the fallen one
And let Jesus burn!

Chants from hell we are united
To celebrate this unholy night
Desecration of the cross in the name of hell
Dark suction ride my soul into the flames of death

Forever hailing blasphemy
Eternal is your legacy
