

Scream For Hell

Old

Silence fills the chamber on this night
The candles are burned down
My knife lays on the ground
The spell is written in blood on the pentagram
My ritual is done for you my horned king
I await your sign from the other side
Dark demonic powers come to me

On this night of my infernal pact
A demonic slut rises out of hell
In the name of Satan she is searching for my soul
To rape me on this night - Again and again
Winged horned beauty come to me
The triumph of hell must be completed
Unite your flesh with mine - Unholy bride
The antichrist must be born for the last command

Ride my flesh with your nails - Cut me deep
Your hellish lust turns me on I want more
Suck my dick horned bitch - 666
My horn impales your dripping cunt pure and deep
Feel my cock horny slut and burn my skin with your lust
By the horns of Satan let me drink your blood
Scream for me... scream for hell...
And scream for the birth of the antichrist
