

## Triumph Of Hell

Old

Again you are here - Claw of doom  
Once i walked through your infernal field  
Doom pain torture is what I got  
Doom pain torture is what I will get

Black - Soul - Possession  
I step into your trap again  
Doom - Hell 'n chaos  
You shall get my soul again

I inhale your venom  
I know my fall  
Pleasure - Glory - Pleasure  
I bury myself  
I reach for hell  
Pleasure, glory, pleasure in the name of hell

Riding on wings of life  
Is like walking in mist of death  
Eye to eye with armageddon  
Eye to eye with apocalypse  
Is this hell in heaven  
Or is it heaven in hell  
Eye to eye with armageddon  
Eye to eye with apocalypse

Never deny and never betray  
Glorify the triumph of hell!
