

Let You Down

Ole 60

I've been thinking 'bout that drive
Through the Rocky Mountains high
In a car we rented
When I pulled off on that shoulder, I looked over, said I loved you and I meant it
And I think it's safe to say, least for the sake of saving face, I won't forget it
When I'm not inside my head, well you're the only other one that's ever in it

One of these days
I'll make you mine again
I'll make you wish that you was with me this whole time and then
Them things I said
That made you cry
That's just not the way they sounded in my mind
I never meant
To let you down
But I let you down
I never meant
To let you down
But I let you down

Won't you take me to the days
When living didn't feel so strange
And being didn't seem like such a chore
And you told me all the time
All I ever was was high
But for a second there
I swore that I was yours

One of these days
I'll make you mine again
I'll make you wish that you was with me this whole time and then
Them things I said
That made you cry
That's just not the way they sounded in my mind
I never meant
To let you down
But I let you down
I never meant
To let you down
But I let you down

I never meant
To let you down
But I let you down
I never meant
To let you down
But I let you down
I've been thinking bout that drive
Through the Rocky Mountain's high
In a car we rented
When I pulled off on that shoulder, I looked over, said I loved you and I meant it
