

Come When You Call

Oleta Adams

Wherever you go,
darlin' I want you to know
that baby I'll come when you call.
Don't you hesitate
honey, no matter how late
baby, I'll come when you call.

When you're all alone
and feelin' blue,
when you can't get up off the ground,
when you need someone there
to help you see it through,
I won't, won't let you down.

Just send me a wire,
whatever your heart may desire
baby, I'll come when you call.
Just drop me a line,
L.O.V.E. will do just fine
baby, I'll come when you call.

I just want to be the one you need,
I'll do anything for you.
I want to be the only one
to share all your dreams
and smile as they come true.

No ocean's too far,
send me a letter in a jar
baby, I'll come when you call.
I won't miss a stroke,
darlin' I swear it's no joke
baby, I'll come when you call.

When everybody turns their back on you,
I won't , won't let you down.
