

# No Way to Love Me

Oleta Adams

Nobody said you had to want me  
You could've just smiled and walked away  
I wish I'd known you could be so hurtful  
I could've saved myself from a day like today  
You were the one with the sweetest kisses  
You were the one who stole my heart  
I could've made my home your caresses  
If you hadn't torn our lives apart

Tell me what do you see in me  
That somehow makes you believe  
That I am the enemy  
At least that's what you perceive  
It makes you do foolish things  
And I know we'll both regret  
From all of the pain it brings  
The pain that makes you forget to love me  
It ain't no way to love me  
If I could've had someone tell my fortune  
Of what was in store for you and me  
This ain't nothing like what I would imagine  
And it ain't the kind of love I need  
We don't even have to stay together  
I'll be satisfied to live on my own  
Everytime you look at me your heart gets colder  
Then I'm better off alone

Tell me what do you see in me  
That somehow makes you believe  
That I am the enemy  
At least that's what you perceive  
It makes you do foolish things  
And I know we'll both regret  
From all of the pain it brings  
The pain that makes you forget to love me  
It ain't no way to love me  
Whooo Hooo hooo hoo hoo  
Oooh Oohhh Oh Oohhh

Tell me what do you see in me  
That somehow makes you believe  
That I am the enemy  
At least that's what you perceive  
It makes you do foolish things  
And I know we'll both regret  
From all of the pain it brings  
The pain that makes you forget to love me  
It ain't no way to love me  
No Way, No Way  
Ooohhh, Ohhh, ohhh, oohh, Nooo
