

Feeling Purdy Good

Oliver Anthony

I've been thinking this drinkin' is wreckin' my health
But I reckon that's better than killin' myself
It's been a long hard ride, right down to the bottom
But I sing the blues, 'cause Lord knows I got them

But I've been feelin purdy good, doin' alright
Got a purdy woman comin' over tonight
And I reckon it thinks it's gonna be alright
When the morning comes
I hate to tell you if truth's been told
It's all just souls tryin' not to get sold
You never grow up, you just grow old along the way
But I've been feeling purdy good today

This anxiety and depression
Lord it's left me second-guessin'
Every damn thing I ever gave a damn about
'Cause when ya work all week
Check is spent on bills and beer and the government
Lord there ain't much that an old boy can do

But I've been feeling purdy good, doin' alright
Got a purdy woman comin' over tonight
And I reckon it thinks it's gonna be alright
When the morning comes
I hate to tell you if truth's been told
It's all just souls tryin' not to get sold
You never grow up, you just grow old along the way
But I've been feeling purdy good today
