

Again & Again

Oliver Tree

Something pushed me to the edge
That's where I've been
Some things gets stuck in your head
That's in your head
Something pushed me to the edge
That's where I've been
Some things gets stuck in your head
That's in your head
That's in your head, head
Head, head

Take what you want
Your mistakes made you wrong
Keep your head up, keep your head up
Take what you want
Your mistakes made you wrong
Keep your head up, keep your head up

Somehow I've been shut down
Again and again
Somehow I've been shut down
Again and again
Oh!

Stop falling on your face
Of course everybody, all makes mistakes
Watch me fall over the edge
It's not like it's gonna matter in the end
Like the things that you had meant
The way they played out in your head
In your head, head
Head, head

Take what you want
Your mistakes made you wrong
Keep your head up, keep your head up
Take what you want
Your mistakes made you wrong
Keep your head up, keep your head up

Somehow I've been shut down
Again and again
Somehow I've been shut down
Again and again
Oh!

Something pushed me to the edge
That's where I've been
Some things gets stuck in your head
That's in your head
That's in your head, head
Head, head
