

# Balloon Boy

Oliver Tree

Running for my life while I'm bleeding out my eyes  
And my teeth start feeling loose  
Watch them fall right from the roots

While my flesh starts to decay  
And my soul disintegrates  
Now my body can inflate and float away  
To a better place

I'm here for the ride  
Like a balloon in the sky  
Watch me float up way too high  
You won't see me in your life

I'm here for the ride  
Like a balloon in the sky  
Watch me blow up and I'm lost  
But I'm going where I want

I'm floating away, I'm going  
I'm floating away today, I know it  
I'm floating away, I'm going  
I'm floating away today, I know it

Watch me float away (Float on)  
I'm a float away (Fly off)  
Watch me fly away  
To a better place

I'm here for the ride  
Like a balloon in the sky  
Watch me float up way too high  
You won't see me in your life

I'm here for the ride  
Like a balloon in the sky  
Watch me blow up and I'm lost  
But I'm going where I want

I'm here for the ride  
Like a balloon in the sky  
Watch me blow up here on sight  
You won't see me in your life
