

# Crash Test Dummy

Oliver Tree

You're a crash test dummy if I ever seen one  
I know you're tough, little buddy  
Please don't ever give up  
You're a crash test dummy if I ever seen one

If you can't save yourself, that's your loss  
It's a long way down from the top  
When you wrecked and when you broke your neck  
You should be dead, cause you fell and split your head

That's called an impact  
Every bone was broken and cracked  
You got smashed  
Now you're wrapped up in a full body cast

You're a crash test dummy if I ever seen one  
I know you're tough, little buddy  
Please don't ever give up  
You're a crash test dummy if I ever seen one  
When life gets rough little buddy  
Please don't ever give up  
You're a crash test dummy if I ever seen one

If you can save yourself, that's enough  
But it's a long way down to climb back up  
When you crash and when you break your back  
Your body's taxed, cause we all smash just like glass

You're a crash test dummy if I ever seen one  
I know you're tough, little buddy  
Please don't ever give up  
You're a crash test dummy if I ever seen one  
When life gets rough little buddy  
Please don't ever give up  
You're a crash test dummy if I ever seen one

You're a crash test dummy if I ever seen one  
You're a crash test dummy  
You're a crash test dummy  
Driving into a wall
