

# I'm Gone

Oliver Tree

Tell me what you want, maybe I was wrong  
Lately that's a lot, is this what you wanted?  
Tell me what you need, nothing comes for free  
Please just tell me what you wanted  
I wanted less and less I guess that  
This is why I left

That's why I'm gone, forever long  
I'm gone  
They will always find you  
Gone, forever long  
I'm gone  
They will always find you

I'm running out of options  
It happens way too often  
I started running into problems again  
It happens way too often for me to forget  
It's easier said than done

Something's in my head  
I thought this was it  
How could I forget?  
This is why I left

That's why I'm gone, forever long  
I'm gone  
They will always find you  
Gone, forever long  
I'm gone  
They will always find you

Tell me what you want, maybe I was wrong  
Lately, it's a lot, is this what you wanted?  
Tell me what you need, nothing comes for free  
Please just tell me what you wanted  
You wanted more, but it was never enough of course  
Stop acting selfish

That's why I'm gone, forever long  
I'm gone  
They will always find you  
Gone, forever long  
I'm gone  
They will always find you
