Miracle Man

Oliver Tree

Your whole life I tried
And now I'm getting older
Your whole life I tried
And now I'm getting closer

Tell me what you want, was it enough for you?
Fucking up your life, was it enough for you? No way
Tell me what you want, was it enough for you?
Fucking up your life was it enough for you? No way, no

It's what you wanted though
Everything you told me I don't need to know
It's what you want to do
Everything you ever could have wanted to do

Don't say it's what you need
I'd say it's what you wanted
Don't say it's what you need
I'd say it's what you wanted

Your whole life I tried
And now I'm getting older
Your whole life I tried
And now I'm getting closer

Tell me what you want, was it enough for you?
Fucking up your life, was it enough for you? No way
Tell me what you want, was it enough for you?
Fucking up your life was it enough for you? No way

Here we go
Barely though
I'm not searching for a miracle

Here we go
Barely though
I'm not searching for a miracle

Here we go
Barely though
I'm not searching for a miracle

Here we go
Barely though
I'm not searching for a miracle

Your whole life I tried
And now I'm getting older
Your whole life I tried
And now I'm getting closer
