

# One & Only

Oliver Tree

True love is hard to find  
I need you by my side  
'Cause everything's alright when I hold you through the night  
You caught me by surprise  
I was searching my whole life  
Let's give it a try

I realize I don't want to wait  
I know that that's a lot to say  
I'm grateful that we're not alone  
I know you're busy every day, I need you with me anyway  
I wonder, how far can we go?

I'll love you 'til I don't exist here anymore  
You're what I'm looking for  
We can make it work for sure  
I'll love you 'til I don't exist here anymore  
You're my one and only

You make me feel less lonely  
Every time you hold me  
You got my heart exploding  
You're my one and only

I realize I don't want to wait  
I know that that's a lot to say  
I'm grateful that we're not alone  
I know you're busy every day, I need you with me anyway  
I wonder, how far can we go?

I'll love you 'til I don't exist here anymore  
You're what I'm looking for  
We can make it work for sure  
I'll love you 'til I don't exist here anymore  
You're my one and only
