Stuck Down The Wrong Rabbit Hole

Oliver Tree

I'm falling down, I've had enough
This Rabbit Hole has got me stuck
A flickering light, about to die
When it gives out, so will I
I'm falling down, I've had enough
This Rabbit Hole has got me stuck
A flickering light, about to die
When it gives out, so will I

I'm falling Down, I've had enough
This Rabbit Hole has got me stuck
A flickering light, about to die
When it gives out, so will I
The crawling out, no easy task
And when the light goes out at last

I can tell but I can't see
The rabbit's standing next to me
Next to me
Next to me

I'm running out, but off the path
Frantically searching for my way back
And now I'm lost and losing hope
And feel the breathing of something close
I must escape, go far from this
But I'm traveling deep in a dark abyss

I can tell but I can't see
The rabbit's standing next to me

The rabbit's standing next to me
