Sunshine

Oliver Tree

I've been searching for my sunshine
She's all I ever need
I've been searching for my sunshine
She's all I ever need

I've been waiting for my sunshine
I'm sick of waiting for my sunshine
But the clouds are still coming

Bad news, tell me more than that
With your back turned
There's no way you're looking back

I've been waiting for my sunshine
I'm sick of waiting for my sunshine

She's all I ever need
She's all I ever need
She's all I ever need
She's all I ever need

I've been looking for some sunlight
It's still too hard to see
I've been searching for some sunlight
I lost a part of me

I stopped looking in the sky
The sun shines bright, it's gonna blind your eyes
Please stop looking in the sky
That sun shines bright, it's gonna blind your eyes

I've been searching for my sunshine
She's all I ever need
I've been searching for my sunshine
She's all I ever need

I've been waiting for my sunshine
I'm sick of waiting for my sunshine

She's all I ever need
She's all I ever need
She's all I ever need
She's all I ever need
