

We are the universe
We are, we are (we are)
We are the universe
Don't forget that
We are the universe
We are, we are (we are)
We are the universe
Don't forget that

We make a universe that's unified
Not just you inside
The cosmos are infinite
Oh no
We make a universe that's unified
You decide where you want to fit in at all

Pastel solstice above me
A new planet discovery
No sun revolves around you only
How could you think that you're lonely?
Our universe is vast, but gravity will hold you back
And overcoming obstacles is easy when you've got control
Grab your ship by the wheel, steer it through that asteroid field
It's nothing big enough to stop you
You're not alone you just forgot that

We make a universe that's unified
Not just you inside
The cosmos are infinite
Oh no
We make a universe that's unified
You decide where you want to fit in at all

We are the universe
We are, we are (we are)
We are the universe
Don't forget that
We are the universe
We are, we are (we are)
We are the universe
Don't forget that

We make a universe that's unified
Not just you inside
The cosmos are infinite
Oh no
We make a universe that's unified
You decide where you want to fit in at all
