

# With You

Oliver Tree

You

I'm running with you

Baby, I've made up my mind  
While I was staring in your eyes  
Losing track of the time  
Let's make it last forever  
Darlin', I wanna run away together

So, where are we going tonight now, baby?  
Where am I going tonight now, baby?

With you

I'm runnin' with you

With you

I'm runnin' with you

Baby, we know this is it  
Both of us have been searchin' our whole life for this shit  
We've got no time to waste  
Darling, can we please get out of this place?

So, where are we going tonight now, baby?  
Where am I going tonight now, baby?

With you

I'm running with you

With you

I'm running with you

It seems like we've both been waitin'  
I've got no more time for wastin'  
I've been searching my whole life, baby it's true

I wanna be with you  
I'm running with you  
With you  
I'm running with you
