

Close Up

Olivia Dean

I, I don't know if you'll call me again
Chasing rabbits don't usually end
With "happy ever after"
And you make reality feel so bizarre
Just because of the person you are
And I'm asking all the questions
Like

How can you get close to someone
You keep out of reach?
And where does that leave me?

'Cos you don't make it easy
Now I'm all close up
I can't tell if you need me
Or want me all that much
Did I mis-read completely every single touch?
Do you even see me?

Now I'm more than a voice on the phone
Now I'm here and we're finally alone
Why do we feel so distant?
You're treating me like I'm one of the rest
I feel stupid for wearing that dress
Yeah, I guess
I saw something you didn't
And

How can you get close to someone
You keep out of reach?
And where does that leave me?

'Cos you don't make it easy
Now I'm all close up
I can't tell if you need me
Or want me all that much
Did I mis-read completely every single touch?
Do you even see me?

'Cos you don't make it easy
Now I'm all close up
I can't tell if you need me
Or want me all that much
Did I mis-read completely every single touch?
Do you even see me?

Now I'm all close up
It don't look like love
And now I'm all close up
It don't look like love
