

Danger

Olivia Dean

I'm in danger with your love
I'm in danger with your love
Let me lay here in your love
Let me lay here in your love

Oh no
Looks like we're in this thing together
Oh no
Look like it's keeps on getting better

Why
Suddenly
I would rather be
With you than anyone?
And why do I feel the world is ending too?

It looks like I'm in danger
Whenever I look in your eyes
It's strange but
I don't see us saying goodbye
So I'll let you move in closer
I want you to
I know it's danger
But I want your love to be mine

I'm in danger with your love
I'm in danger with your love
Let me lay here in your love
Let me lay here in your love

You make me feel
I got new emotions
I wanna bathe you in you babe
And swim in to your ocean

Why suddenly would I rather be with you than anyone?
And why does it feel it like the world is ending too?

It looks like I'm in danger
Whenever I look in your eyes
It's strange but
I don't see us saying goodbye
So I'll let you move in closer
I want you to
I know it's danger
But I want your love to be mine

I'm in danger with your love
I'm in danger with your love
Let me lay here in your love
Let me lay here in your love

There's nothing I can do
You really make go against my nature
Loving you is too
Easy oh it's looks like I'm danger

There's nothing I can do
You really make go against my nature
Loving you is too
Easy oh it's looks like I'm danger

It looks like I'm in danger
Whenever I look in your eyes
It's strange but
I don't see us saying goodbye
So I'll let you move in closer
I want you to
I know it's danger
But I want your love to be mine

I'm in danger with your love
I'm in danger with your love
Let me lay here in your love
Let me lay here in your love
