

Dangerously Easy

Olivia Dean

Old flame
Where do you love from?
Explain, how did you find your way?
This happiness suits you

A job you don't hate
Painting the town with your mates
And an arm full of bad tattoos
You make it look easy
Dangerously easy
You do

Old flame
Where did she come from?
That face, smiling in my place
This happiness suits you

She's probably the one
Gets on so well with your mum
And all the way down-to-earth
You make it look easy (Easy)
Dangerously easy (Easy)
You two

But I'm still stuck in my own way
Always choosing the hard way
It feels like every time
I try taking it easy
I don't even believe me
And you just burn the same

Old flame
Where do I get something true?
What have I got to do?

To make it look easy (Easy)
Dangerously easy (Easy)
To make it look easy (Easy)
Dangerously easy (Easy)

Like you
