

# Float

Olivia Dean

I can see where we're headed, had one foot in before  
Don't wanna regret it, I wanna be sure  
Hope you know that I'm all in, I'm not having second thoughts  
Just wanna stay in this moment before we get lost

Can we just float here for a while?  
Take our time and just  
Lie back and coast here for a mile  
Before we get too deep  
Are we cool to just float, float?  
Before we get too deep  
Are we cool to just float, float?

I can see us in Paris, I can see us in Rome  
Stuck in five o'clock traffic on our way home  
I guess what I'm tryna say is, that I see it all for us, and  
With the places we're going, we don't need to rush, I'm asking

Can we just float here for a while?  
Take our time and just  
Lie back and coast here for a mile  
Before we get too deep  
Are we cool to just float, float?  
Before we get too deep  
Are we cool to just float, float?

I'm asking please, please, just be patient with me  
Let's give it time, time, to just float out to sea  
Yes, we got it good and there ain't no reason to be  
Getting carried away, can you just be here with me?

Can we just float here for a while?  
Take our time and just  
Lie back and coast here for a mile  
Before we get too deep  
Are we cool to just float, float? (Float)  
Before we get too deep  
Are we cool to just float, float? (Float)  
Before we get too deep  
Are we cool to just float, float?
