

# 16 Steps

Olivia Holt

[Verse 1: Olivia Holt]

Lately I feel like I've been selling  
Half of my soul to feel your love  
I gave all of my faith to someone  
Who's body is all that I know  
Lately I feel like I've been feeling  
Something you don't, so help me  
Gotta pull you in close but I know  
That I should be letting you go

[Pre-Chorus: Olivia Holt]

A mess with it, a mess without it  
I go down either way  
Endless shots and countless hours  
I wonder 'bout your place

[Chorus: Olivia Holt]

It's only 16 steps from your door to your bed  
I should know better with your body next to mine  
Can't help myself, help myself (only 16 steps)

It's only 16 steps from your door to your bed  
I should know better with your body next to mine  
Can't help myself, help myself (only 16 steps)

[Verse 2: Olivia Holt]

Take me in slowly, hold me down and  
Swallow your prayers, just spit me out  
I wanna believe something that's  
Different from what I've been told  
(Different from what I've been told)  
Take all my doubts so I can really  
Be with you now and let my body  
Really believe something that's  
Different than letting you go (letting you go)

[Pre-Chorus: Olivia Holt]

A mess with it, a mess without it  
I go down either way  
Endless shots and countless hours  
I wonder 'bout your place

[Chorus: Olivia Holt]

It's only 16 steps from your door to your bed  
I should know better with your body next to mine  
Can't help myself, help myself (only 16 steps)

It's only 16 steps from your door to your bed  
I should know better with your body next to mine  
Can't help myself, help myself (only 16 steps)

[Bridge: Olivia Holt]

Only 16 steps  
Only 16 steps  
Only 16 steps  
Only 16 steps

[Pre-Chorus: Olivia Holt]

A mess with it, a mess without it  
I go down either way  
Endless shots and countless hours  
I wonder 'bout your place

[Chorus: Olivia Holt]

It's only 16 steps from your door to your bed  
I should know better with your body next to mine  
Can't help myself, help myself (only 16 steps)

It's only 16 steps from your door to your bed  
I should know better with your body next to mine  
Can't help myself, help myself (only 16 steps)

[Outro: Olivia Holt]

Only 16 steps  
Only 16 steps  
Only 16 steps  
Only 16 steps
