

Drop

Olivia Holt

I'm not talkin'
You don't give me this space
I saw a problem
You give less than you take
No way I'm doing it
No way no way I'm going back
You wanna pull the present me into the past

Last time meant he's afraid
If you're waiting for more
Keep hanging on
'Cause the last drop of love is gone
And you're thirsty for more but I'm done
So you can

Keep waitin' for him to drop
But I just don't give a fuck
Done down that river enough
And now I don't give a fuck
Keep waitin' for him to drop
But I just don't give a fuck
I'm not crying you off
But I just don't give a fuck

You say 'miss you'
And it sounds really nice
This is a set up
Step one before we fight

No way I'm doing it
No way no way I'm going back
You wanna touch and taste the love you had on tape

Last time meant he's afraid
If you're waiting for more
Keep hanging on
'Cause the last drop of love is gone
And you're thirsty for more but I'm done
So you can

I see you later
Cry me a river (Mm mm)
'Cause the last drop of love is gone
And you're thirsty for more but I'm done
So you can

Keep waitin' for him to drop
But I just don't give a fuck
Done down that river enough
And now I don't give a fuck
Keep waitin' for him to drop
But I just don't give a fuck
I'm not crying you off

No I ain't gonna cry for you, baby
Cry for you, baby
I see you later

Cry me a river

Cry for you, baby

Cry for you, baby

I'm not crying you off

'Cause I just don't give a fuck
