

Nothing Changes

Olivia Lane

Are you gonna love, are you gonna run away
Take the easy out when it gets too hard to stay
Are you gonna try to see yourself
Or turn the light off, make the same mistake with somebody else

Easier said than than done
Don't you think it's true?

Well nothing changes if nothing changes
Nothing new down that same old road
Got a chance and you gotta take it
Nothing changes if nothing changes

Are you gonna say the way you really feel
Are you afraid the words out loud might make it real
Make the truth so loud and clear
That what you know you need to do is the only voice you hear

Easier said than done
The choice is up to you

Well nothing changes if nothing changes
Nothing new down that same old road
Got a chance and you gotta take it
Nothing changes if nothing changes
Nothing changes
Nothing

Nothing changes if nothing changes
Nothing new down the same old road
Got a chance are you gonna take it?
Nothing changes if nothing changes
Nothing
Changes
If nothing
Nothing changes if nothing changes
