

Who God Says You Are

Olivia Lane

I can see the heavy on your mind
I can see the sad there in your eyes
You feel a million miles away from peace
But I promise you He's closer than you think
And when you're lost in the thoughts in your head
I'll be here to tell you what He says

He says you're perfectly loved
No matter what
And He's got a good good plan for you
You can't out run
He says His light is burning bright inside of you
And you're never on your own
That's the truth
So when the lies take a hold of your heart
I'll remind you Who God Says You Are

He says that you're precious in His sight
And when you don't have the strength, just let Him fight
He says your His child a new creation
And there's freedom when you believe the words He's saying

He says you're perfectly loved
No matter what
And He's got a good good plan for you
You can't out run
He says His light is burning bright inside of you
And you're never on your own
That's the truth
So when the lies take a hold of your heart
I'll remind you Who God Says You Are

And when you're lost in the thoughts in your head
I'll be here, be your friend, just like you have always been
When I needed you to tell me what He says

He says you're perfectly loved
No matter what
And He's got a good good plan for you
You can't out run
He says His light is burning bright inside of you
And you're never on your own
That's the truth
So when the lies take a hold of your heart
I'll remind you Who God Says You Are
