

No Matter What You Do

Olivia Newton-John

No matter what you do I'll send you love
No matter what you say
No matter what you do I'll send you love
Starting today
I'm not lost
I'm not scared
I'm not frightened at all
I'm just sad that you're feeling this way
But no matter what you do
I'll send you love anyway

I started out with anger I was mad
I started out afraid
I had to let it go 'cause in your mind
You felt betrayed
You are lost
You are scared
You are frightened I know
And I'm sad that you're feeling this way
But no matter what you do
I'll send you love anyway

I found out
Just what is important
And I found out
Who really loves me
And I found out
That trials like these make us grow
So no matter what you feel I've done to you
Know that my heart was true
If reaping what you sow is real I know
I planted in truth

And I hope you find out
That it's you that you're hurting
It's time that you let it all go
'Cause no matter what you do
I'll send you love 'cause I know

That if I lose it all
I'll survive and I'll show
From the fall I can grow and go on
And I won't live in fear of the changes it makes
'Cause I've learned what it takes to be strong

So no matter what you do
I'll send you love
Oh no matter what you say
Oh no matter what you do
I'll send you love starting today
I'm not lost
I'm not scared
I'm not frightened at all
I surrender myself to my fate
So no matter what you do I'll send you love
Oh no matter what you do I'll send you love
Oh no matter what you do I'll send you love anyway
