

Almost In Love

Olivia O'Brien

You're not mine, you never were
You never wanted me like you wanted her
The wrong time, she met you first
Been one too many times but I never learn

See you doin' good, and that makes me smile
Even though I haven't seen your face in a while
I'm still in Hollywood, just a couple miles
I wish you'd stop by, though we know it's not your style

Remember when you said that we should keep in touch
I really wanna see you but it hurt too much
Almost in love
I know I really shouldn't but I miss your touch
Told me that you like me but it's not enough
Almost in love

Almost in love
So close to love
Almost in love

You moved on, but I never could
You're never gonna call but I wish you would
Been too long, don't know what to think
I got you on my arm but you there in ink

I see you doin' good, that makes me smile
Even though I haven't seen your face in a while
I'm still in Hollywood, just a couple miles
I wish you'd stop by, though we know it's not your style

Remember when you said that we should keep in touch
I really wanna see you but it hurt too much
Almost in love (almost in love)
I know I really shouldn't but I miss your touch
Told me that you like me but it's not enough
Almost in love (almost in love, almost in love)

Almost in love
So close to love
Almost in love
(Almost in love)

It could've been love
It could've been something
It could've been us
Or it could've been nothing
(It could've been nothing)

Remember when you said that we should keep in touch
I really wanna see you but it hurt too much
Almost in love

Remember when you said that we should keep in touch
I really wanna see you but it hurt too much
Almost in love (almost in love)
I know I really shouldn't but I miss your touch

You told me that you like me but it's not enough
Almost in love (almost in love)

Almost in love
So close to love
Almost in love

Almost in love
So close to love (almost in love)
Almost in love
(Almost)
