

# Never Be The One

Olivia O'Brien

Never be the one

We're making out in your Sprinter  
Holding me close, it was winter  
I put Tame Impala on  
You said you only knew one song

Travel the world just to see you  
Smoking cigars at LouLou  
All I got from that fight we had  
Is the heart-shaped rock still in my bag

Always say we'll do it when we're older  
But that day keeps getting closer  
I don't want this to be over  
I like the way

You'll never be the one  
Who got away  
Never be the one  
Who had to stay  
Never be the one  
Never be the one  
I like the way you'll never be the one  
Who broke my heart  
We're never gonna let  
It get that far  
Never be the one  
Never be the one

We need a knife for the tension  
All of our friends keep mentioning  
The way we love each other  
But in what way? Friends or lovers?

Always say we'll do it when we're older  
But that day keeps getting closer  
I don't want this to be over  
I like the way

You'll never be the one  
Who got away  
Never be the one  
Who had to stay  
Never be the one  
Never be the one  
I like the way you'll never be the one  
Who broke my heart  
We're never gonna let  
It get that far  
Never be the one  
Never be the one

I can't hate you  
So that's why I can't date you  
I hate how it sounds  
I never say never but it's never for now

Who got away  
Never be the one  
Who had to stay  
Never be the one  
Never be the one  
I like the way you'll never be the one  
Who broke my heart  
We're never gonna let  
It get that far  
Never be the one  
Never be the one  
I like the way you'll never be the one  
Who got away  
Never be the one  
Who had to stay  
Never be the one  
(You'll never be the one)  
Never be the one  
(You'll never be the one)
