

# Wonderland

Olivia Ong

If you open your heart  
Open your mind  
You will have a view that's different from before  
See with your eyes  
Feel with your heart  
There will be a new sight when you walk through that door

I found a place  
And I love this space  
Eyes are a sparkle and the Mind is awake  
Pay attention  
To your Intuition  
Break down all the walls, take in fresh oxygen

And all that we wanna find in life  
Is right before our eyes, yeah  
If you dig deep inside your heart  
You'll find the simple joys in Life

Take a walk in the park  
Wind in my hair  
Take a break, go out, get myself some fresh air  
Nature is good  
Nature is free  
Swinging arms from side to side in my reverie

And all that we wanna find in life  
Is right before our eyes, yeah  
If you dig deep inside your heart  
You'll find the simple joys in Life

(Welcome to my Wonderland)  
(Welcome to my Wonderland)  
(Welcome to my Wonderland)  
(Welcome to my Wonderland)  
(Welcome to my Wonderland)  
(Welcome to my Wonderland)  
(Welcome to my Wonderland)  
(Welcome to my Wonderland)

And all that we wanna find in life  
Is right before our eyes, yeah  
If you dig deep inside your heart  
You'll find the simple joys in Life

And all that I wanna find in life  
Are things that make me happy inside  
I'll piece them into simple joys of life  
And that's where I'll be heading
