

Wait For It

Olivia

Boy, what you want, what you wanna do
Boy, what you want, what you wanna do
(Just wait for it)

It's been a while since I came out
Wanna take a load off enjoy the night out
Plus the DJ playing my shit I'm feeling fly now
I don't want this night to end I'm in my vibe now

When I dip (dip) slide (slide) ride out (oh oh)
I know you wanna follow me to my house
(When we dip) dip, slide (slide) ride out (oh oh)
You know I like 'em bad take a timeout
(Just wait for it)

I got 24hrs to break it on down
Call my crew up gonna hit the town
Got a pocket fulla dollars not messing around
All my bitches bad, we gonna shut this shit down
Let's get lost in the moment tonight
If it feels good then it must be right
Party all day giving you the green light
Put ya hands up gonna be a good night

It's been a while since I came out
Wanna take a load off enjoy the night out
Plus the DJ playing my shit I'm feeling fly now
I don't want this night to end I'm in my vibe now

(When we dip) dip, slide (slide) ride out (oh oh)
You know I like 'em bad take a timeout
(Just wait for it)

Bought a couple pink bottles let's pass it around
Who came to turn up not gonna turn me down
Got ya hair did, nails did adjust your real crown
Girl, don't let them bring you down

Let's get lost in the moment tonight
This feels good then it must be right
Party all day giving you the green light
Put ya hands up gonna be a good night
