

Anxious

Ollie

I've been feeling anxious
Wondering if shit will work out
I've been feeling anxious
Work so late I slept on my couch
My friends ask me what is going on
Cause lately I don't seem like myself
Guess I've been feeling anxious
Wondering if shit will work out

Twist off the top of the bottle
Fuck it I'm drinking tonight
Its better than me feeling awful
Dealing with things on my mind
I got a problem with patience
An its been taking its toll
Balancing life isn't easy
That's why there's rum in this coke
An they say it all be fine
But I'm goin' worry anyway
My thoughts running overtime
I don't know another way
Maybe I'm too paranoid
Questioning what I know
But I'm only just human
A lot of things I cant control

I've been feeling anxious
Wondering if shit will work out
I've been feeling anxious
Work so late I slept on my couch
My friends ask me what is going on
Cause lately I don't seem like myself
Guess I've been feeling anxious
Wondering if shit will work out

They say I'm losing my focus
That's why I'm always up tight
I think it's simple mitosis
An tryna to do everything right
Life has been driving crazy
Always comparing myself
To people in different positions
I think it's affecting my health
An they say it all be fine
But I'm goin' worry anyway
My thoughts running overtime
I don't know another way
Maybe I'm too paranoid
Questioning what I know
But I'm only just human
A lot of things I cant control

I've been feeling anxious
Wondering if shit will work out
I've been feeling anxious
Work so late I slept on my couch
My friends ask me what is going on

Cause lately I don't seem like myself
Guess I've been feeling anxious
Wondering if shit will work out
