

blue skies

Ollie

Lost but found, was
All of my faith that fell astray
I got superpowers
I couldn't use while in the fray
But now nothing else
But a blue sky in my way
Nothing else
But a blue sky in my way
Lost but found, was
All of my faith that fell astray
I got superpowers
I couldn't use while in the fray
But now nothing else
But a blue sky in my way
Nothing else
But a blue sky in my way

Yeah, yeah
Was lost but found
I'm seeing the flowers, they bloomin' now
After the years of falling from grace, I hit the ground
Yeah, a lot in my head was movin' 'round
It's like my mood change with the seasons
Been searchin' for a meaning
Can't nothing bring me down
I get high, I got my reasons
I found out long ago
When you run, it's hard to grow
Tough to find the words to say
I'm just tryna take it slow
Take a slowdown and change
The things now I hear in my brain (Brain)
Questions that make me afraid (Afraid)
Not sure if my silence is wisdom
A part of the price that I pay
But these blue skies got me wide awake now
It's a new life, I cut all the fake out
Things are clear in my mind, ain't no rain clouds
What I'm saying's how

Lost but found, was
All of my faith that fell astray
I got superpowers
I couldn't use while in the fray
But now nothing else
But a blue sky in my way
Nothing else
But a blue sky in my way
