

Deep Ends

Ollie

Even when I'm knocked down ima find a way
Know you feeling lost now drinkin champagne
Jus thinking bout us, just thinking bout us

Quarter after 4 o'clock nothing goin change
Tryna make the world stop numb a little pain
When I'm thinking bout us, when I'm thinking bout us

If ain't goin make you happy
Tell me what its gunna take
Fall into my arms you have me
But all you ever need space

I'm jus tryna make it easy
I don't wanna walk away
Please say something, please say something

Saying that I think too much, think too much, I do
I don't wanna mess this up, mess this up, lose you

Feeling like I'm stuck out on a island (think)
I think life is all timing
I know everything that hurt made me stronger
That's why when upset I'm still smiling

I mean, Whoever stood beside me at the bottom
That's who goin be with me at the top
This world is never falling short of problems
If they standing in between I cut em off

I grown too wise now for the fake shit
An it broke a lot things all at once
But there's still something, something for you

Even when I'm knocked down ima find a way
Know you feeling lost now drinkin champagne
Jus thinking bout us, just thinking bout us

Quarter after 4 o'clock nothing goin change
Tryna make the world stop numb a little pain
When I'm thinking bout us, when I'm thinking bout us

If ain't goin make you happy
Tell me what its gunna take
Fall into my arms you have me
But all you ever need space

I'm jus tryna make it easy
I don't wanna walk away
Please say something, please say something
