

Here Now

Ollie

I wanna fight for you
I wanna fight for you
I wanna give you all that you deserve
There's nothing that I could do
Nothing that I could do
I know how love gets hard that's how it works

Never thought id fall for you like this
If I hear one more love song I'll be sick
I was broke in pieces now I'm fixed
I just want to hold you here right quick

2 o'clock in the morning I lay still I'm wide awake
Sometimes I hurt your feelings like I said I'm not afraid
Truth be told you're a pain in my side most days
But the 1% your not got me forgetting everything
Its just right
I been thinking tonight
Can't keep my hands to myself
Buy you a ring watchu like
Just know you're safe when you fall
Right here I'll stay thru it all
Id never give up fighting for you, no

I wanna fight for you
I wanna fight for you
I wanna give you all that you deserve
There's nothing that I could do
Nothing that I could do
I know how love gets hard that's how it works

Never thought id fall for you like this
If I hear one more love song I'll be sick
I was broke in pieces now I'm fixed
I just want to hold you here right quick

When I hold you in my arms feel my blood rush
I just want you so bad scared I'll mess up
Let's spend a weekend in the city get a room an a bottle we can spin it till
we fall in some drunk love
I'm tryna show you that we both on the same team
What you want I want too its the same dream
Know somedays you get mad
An you curse at the person who's near but the enemy just ain't me
You been here since day an I need that
Not too many I trust for my feedback
Take a minute slow down can you call me
Drinking liquor right now can you call me
Letting go was never really on the table
You the pieces of my heart I'm not able
I need you, I need you

I wanna fight for you, I wanna fight for you
I wanna give you all that you deserve
There's nothing that I could do
Nothing that I could do
I know how love gets hard that's how it works

Never thought id fall for you like this
If I hear one more love song I'll be sick
I was broke in pieces now I'm fixed
I just want to hold you here right quick
